	******* Approx. 0.5 W when the battery pack is fully charged (or not being charged) and the computer is off. Even when the AC adaptor is not connected to the computer, power is consumed (Max. 0.15 W) simply by having the AC adaptor plugged into an AC outlet.
	************24 Do not expose the skin to this product when using the product in a hot or cold environment. (+OPERATING INSTRUCTIONS - Read Me First)
	When using in hot or cold environment, some peripherals may fail to work properly. Check the operation environment of the peripherals.
	Using this product continuously in a hot environment will shorten the product life. Avoid use in these types of environments. When using in low tem-perature environment, startup may become slow or battery operation time may become short.
	The computer consumes power when the SSD is warming up during startup. Therefore, if you are using battery power and the remaining power is low, the computer may not start up.
