

CASE STUDY

## **Self-Service Face Recognition Armoury Kiosk showcased at Singapore Police Force (SPF) Workplan Seminar & Exhibition 2023**

**Singapore, 29 June 2023** – [Panasonic Connect Asia](#) announced the showcase of Automated Armoury System held at Singapore Police Force Work Plan Seminar and Exhibition 2023 on 12 and 13 May 2023.

In January 2023, the Project “Supply and Maintenance of Self-Service Armoury KIOSK System” for Ministry of Home Affairs, was awarded to Panasonic Connect Asia and its consolidated company RFNet Technologies Pte. Ltd (hereafter “Panasonic”).

## About the project

This project that the SPF, the Central Narcotics Bureau, and the Home Team Science and Technology Agency (HTX) are developing is a full turn-key solution that includes the design and development of hardware and software, production, installation and maintenance services. It is a smart lockers system complemented by Radio-Frequency Identification (RFID) technology and Two-Factor Authentication (2FA) for officers to perform self-withdrawal and return of their sidearms. With multiple authentication terminals, several officers will be able to withdraw/ return their sidearms and tasers at the same time. There is improved governance of armaments, with the system being capable of detecting and responding to lapses. The automated armoury system will be deployed island-wide across Singapore’s neighbourhood police centres over the next few years.

---

### Overview of the system

---

<b>System Name</b>	Self-Service Armoury Kiosk System
--------------------	-----------------------------------

---

- 2FA to access
- BS 7558:1992 Standard compliant
