- 1GB = 1,000,000,000 bytes. Total usable memory will be less depending upon actual system configuration.
- Fn keys, I/O ports, reverse docking into convertible mode available on Premium Keyboard only. Lite Keyboard opens at 100° angle.
- Barcode, Serial (true), USB-A 0.5Gbps and MicroSDXC are mutually exclusive.
- Battery performance features such as charge time and life span can vary according to the conditions under which the computer and battery are used. Battery operation and recharge times will vary based on many factors, including screen brightness, applications, features, power management, battery conditioning and other customer preferences. Battery test results from MobileMark 25 at 250 nit, connected to Wi-Fi and using the Office Productivity and Creativity scenarios. MobileMark 2014 battery life results is 10 hours (20 with optional long life batteries) tested at 150 nit, connected to Wi-Fi and using just the Office Productivity scenario.
- Long Life Batteries add a bump out which prohibits use in convertible mode. Not compatible with optional Quick-release SSD or with Gamber-Johnson CF-33 Tablet Vehicle Dock when using a rotating hand strap. For units originally ordered with standard batteries, changing to long life batteries requires a hardware retrofit to the unit.
