Firmware Update Procedure

1. Introduction

Firmware update is performed by connecting the target Easy Wireless Stick to the USB port of a Windows or Apple computer.

This firmware update procedure applies to the following product.

Product name : Easy Wireless Stick Product number : ET-UW100

This document describes how to perform update on a Windows computer.

Screen images from the Windows 7 operating system are used in this document as an example. Images used in this document may differ from the actual screens.

For details on Windows and computer operations, refer to the instruction manual of your computer.

2. Preparation

2.1 System Requirements

A computer the meets the following requirements is necessary to perform firmware update.

	Microsoft Windows 7*1	:Ultimate (32-bit/64-bit edition),
		Professional (32-bit/64-bit edition),
		Home Premium (32-bit/64-bit edition)
OS	Windows 8.1	:Windows 8.1 Pro (32-bit/64-bit edition),
		Windows 8.1 (32-bit/64-bit edition)
	Windows 10	:Windows 10 Home (32-bit/64-bit edition),
		Windows 10 Pro (32-bit/64-bit edition)
Interface	USB 2.0	
CPU	Minimum specifications required by the OS or better	
Memory	Minimum specifications required by the OS or better	

*1 Only SP1 is supported for Windows 7.

Notes

- Administrator privileges are required to perform update.
- Operation via a USB hub is not guaranteed.
- Operation using a system other than that described above or using a home-built computer is not guaranteed.

Operation is not guaranteed on all computers that meet the above requirements.

2.2 Checking the Firmware Version

1

Connect the Easy Wireless Stick to the computer.

When you insert the Easy Wireless Stick into the computer's USB port, the software will start automatically.

Notes

- If the software does not start automatically, manually execute the [EWSGUIMain.exe] file located in the [EasyWS] CD drive under [Computer].
- If the [AutoPlay] screen appears, select [Run EWSGUIMain.exe].

💒 AutoPlay	
CD Drive (I:) EasyWS	
Always do this for software and g	james:
Install or run program from your	media
Run EWSGUIMain.exe Publisher not specified	
General options	
Open folder to view files using Windows Explorer	
View more AutoPlay options in Con	trol Panel

 The software will not start automatically if the computer's logon screen is displayed or while the computer is locked.

2 Select [About] – [Version] in the connection destination select screen.

The version information is displayed.

2.3 Preparing the Firmware

1

Download the firmware.

Panasonic website:

https://panasonic.net/cns/projector/

or

https://panasonic.net/cns/prodisplays/

Download the "uw100_****.exe" (ex: uw100_3000.exe) self-extracting compressed file for the Easy Wireless Stick's firmware update tool to any folder.

Note

• The file name of the update tool will vary depending on the product number and version of the target device. Select the update tool that corresponds to your target device and the version you want to use.

9 Extract the compressed file.

When you double-click the "uw100_****.exe" (ex: uw100_3000.exe) compressed file that you downloaded, self-extraction starts and the "FirmUpdateTool_uw100_****.exe" (ex: FirmUpdateTool_ uw100_3000.exe) executable file for the firmware update tool is created in the [uw100] folder. You can also specify a different destination folder for extraction.

3. Update

3.1 Updating the Firmware

1 Connect the Easy Wireless Stick to the computer.

Insert the Easy Wireless Stick for which you want to update the firmware into the computer's USB port.

Note

• If the [AutoPlay] screen appears, close it. If the software starts automatically, exit it.

🕍 AutoPlay 🗖 🗆 🖾	Select Access Port About Configuration	X
CD Drive (I:) EasyWS CD Drive (I:) EasyWS Always do this for software and games: Install or run program from your media	List Tree Select Projector Current Setting : S Wireless LAN S-MAP 1 2 3 Name ID [1] : Name2140 Proj2140 [2] : Name5457 Proj5457 [3] : NAME5610 Proj5610	-MAP
General options Open folder to view files using Windows Explorer <u>View more AutoPlay options in Control Panel</u>	Conr	iect

2 Run the update tool.

Run the "FirmUpdateTool_uw100_****.exe" (ex: FirmUpdateTool_uw100_3000.exe) firmware update tool extracted in "**2.3 Preparing the Firmware**."

Note

• If the [User Account Control] dialog box (i.e., "Do you want to allow the following program from an unknown publisher to make changes to this computer?" message) appears, select [Yes].

? Overwrite the firmware.

Verify the version number displayed in the update confirmation screen, and click the [Update] button.

FirmUpdateTool_uw100	
Version : 3, 0, 0, 0 VolumeLabel: EASYWS	Example version number after overwrite
EWS Version: 2, 0, 0, 0	Example version number before overwrite
Update Cancel	

Notes

- The overwrite process takes about 4 minutes.
- After overwrite starts, all buttons in the update tool screen are disabled.

🔏 FirmUpdate	Fool_uw100		×
Version : VolumeLabel: EWS Version: Uploading ISO I	3, 0, 0, 0 EASYWS 2, 0, 0, 0 mage (50%)		
Update		Gancel	

Caution

• Do not remove the Easy Wireless Stick from the USB port or attempt to remove the [EasyWS] CD drive while overwrite is in progress.

 The Easy Wireless Stick will restart during the firmware overwrite process. Therefore, depending on your computer's AutoPlay settings, the [AutoPlay] screen may appear, Explorer may open and the contents of the [EasyWS] folder may be displayed, or the PDF file in the [EasyWS] folder may open. In such cases, close the windows or files, and wait for update to complete.

I Exit the update tool.

When overwrite is complete, the [OK] button is enabled. Click the [OK] button to exit the update tool.

Connect	

4. Miscellaneous

4.1 Troubleshooting

• If firmware overwrite fails due to the Easy Wireless Stick being removed during the process, for example, repeat the steps in "3. Update" to perform update again. (This only applies when updating from firmware Ver. 2.0.0.0 or later.)

4.2 Trademarks

- Microsoft and Windows are registered trademarks or trademarks of Microsoft Corporation in the United States and other countries.
